

Summer Fenn 2022 Covid-19 Policies and Guidelines

(Posted 12/27/21)

These policies are subject to update based on current guidance from local and national health officials and Fenn school leadership.

Vaccinations are currently not required to attend Summer Fenn, however...

Summer Fenn reserves the right to update this policy without advance notice at any point before or during the summer season. NO REFUNDS for deposit or tuition will be given if your vaccine-eligible child needs to withdraw from camp because a mandate is instated and your child is not vaccinated.

IF/WHEN a vaccination mandate was to be instated at Summer Fenn, we will always allow for documented medical and other legal exemptions, and we reserve the right to require a testing protocol for any/all unvaccinated individuals attending camp with such valid exemptions.

Masking is still currently required for indoor activity when physical distance cannot be maintained. Masking is optional outdoors always.

Hand Hygiene is a regular part of our daily camp routine, as well as numerous hand sanitizer stations throughout the campus.

Outdoor Programming + Enhanced Ventilation will keep optimal air exchange conditions throughout the summer, even if we need to be indoors. Our programs will be outdoors whenever possible, and Fenn has invested in HVAC upgrades to maximize air exchange rates in indoor spaces where specialty camps and inclement weather activities may take place.

Any campers deemed to be close contacts will follow our 2021 quarantining policies until updated guidance is provided as we approach the spring/summer season. This includes a quarantine/test on the 5th day, and then return on day 8 if negative and symptom free, with close monitoring of any potential symptoms arising for up to 14 days.

By enrolling in and attending Summer Fenn, you agree to perform a daily health screening for yourself (if bringing your child on campus) and your child for whom you are the legal guardian. If the result of that wellness screening shows your child has any symptoms of Covid-19, you agree to keep your child home and contact the camp health office immediately for further instructions.
